

# CLIMATE POSITIVE

## Corporate Travel Program

We're partnering with the experts at Sustainable Travel International to offer a suite of climate solutions that will help you green your corporate travel in three simple steps.

It would take an **acre of forest 4 months** to absorb the amount of CO<sub>2</sub> generated by a business class flight from Atlanta to New York.

### Measure

Sustainable Travel International will measure your company's business travel carbon footprint.

### Offset

Offset carbon to balance out your emissions and support a diverse portfolio of verified climate projects.

### Communicate

Receive resources that help you share your impact and educate employees on sustainable travel.

### Taking climate action makes business sense.

- ✓ Stay ahead of new regulations
- ✓ Create efficiencies and reduce costs
- ✓ Meet consumer demand for sustainability
- ✓ Attract investors and meet shareholder demands
- ✓ Enhance guest and employee experience
